

Careers - LLM in Law & Tax Management

The LLM in Law & Tax Management, drawn upon the research conducted at the [LegalEdhec Research Centre](#), offers a practice-oriented and original curriculum, designed for students who aim to work as business lawyers, in-house counsels or compliance officers.

It introduces students to the best legal practices, but also to explain how these best practices must be at the heart of company' strategies. To that extent, the programme may also be helpful for students interested in working in sectors or positions where the legal dimension is strongly present.
